How might I use this resource?

This communication board is designed to help people with communication difficulties.

You may print them out and use them as a communication support or use them in addition to a personal Augmentative and Alternative Communication (AAC) system. You can also use them as a guide for the types of words to add to a personal AAC device before your visit.

There are two language levels available: 10 and 15 fringe words. There are two versions for each level: Picture Communication Symbols (PCS) & Symbolstix. Choose the most suitable version for your usage.

| | 10 fringe words | 15 fringe words |
