

Suggested Park Itinerary

7.00pm

Kick-start your adventure and catch the **Tram Safari Adventure** - hop aboard the tram and venture across various landscapes on this 40-min ride with commentary.

Spot our animals bathed in moonlight, like the Asian elephants, striped hyenas, sloth bears, and Asian small-clawed otters as we journey through Night Safari's six geographical regions - the Himalayan Foothills, Indian Subcontinent, Equatorial Africa, Asian Riverine Forest, Nepalese River Valley and Burmese Hillside.

8.15pm

Hop off the tram and embark on a night-time adventure along our four interlinked walking trails, with up-close encounters with animals not seen on the tram route.

8.30pm

Start off with **Fishing Cat Trail**, where you can expect to see native species such as pangolins and binturongs.

8.50pm

Continue on to **Leopard Trail**, get to know our Asiatic lion at Lion Lookout and look out for our Sri Lankan Leopard and gold cat, as well as our giant flying squirrels in a walk-through exhibit.

9.10pm

Next up, venture onto **East Lodge Trail**, where animals of the savannah and the tropics live side by side.

Finally, end off your trek at the Australasian-inspired **Wallaby Trail**, as you stroll among our free-ranging wallabies and explore the stunning Naracoorte Cave.

9.30pm

Get ready for non-stop action with a star cast that includes our binturong, serval, python, Asian small-clawed otters and more at the **Creatures of the Night Show**. This interactive animal extravaganza set in the heart of the rainforest promises to thrill, as the animals display their natural and unique behaviours and skills.

10.00pm

Complete your visit by bringing back some attractive souvenirs from the Night Safari souvenir shops on the way out!
