

Bird Nannies @ Breeding and Research Centre

1. When the eggs first arrive at the Centre, they are placed in the _____ room.
2. After the chicks are hatched, they are transferred to the _____ room.

They are placed in _____.

3. Birds that have fully developed feathers will move to the _____ room where they will meet and make friends with other birds!

Draw your favourite chick!

Once the birds are ready to take care of themselves, they will join their feathered friends in the main exhibits!
